***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 12-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Karl Ulrich Loske (GB 2010731).

Loske teaches the molding tool (5) having coupling means wherein the contact surface (8) has sealing means (7), and means for applying traction (17) the channels (9) can also be metallic sintered material (page 2, line56).

***Response to Arguments***

3. Applicant's arguments with respect to claims 12-22 have been considered but are moot in view of the new ground(s) of rejection. Newly found prior art reference GB 2070731 clearly teaches the claimed apparatus.

***Conclusion***
